

M1 Series

Feature of product

- High Output Power@idle (increase 10~50 Watt)
- Low/No Batt. Operation (work normally even without battery)
(Fast Voltage-recovery, No battery operation)
- High Efficiency, Cool Operating (temp. increase <10°C)
- Zero standby current, Auto Operating
- Thermal compensation, Precise Voltage
- System cost reduction, Fuel / CO2 reduction
- Zero Defect solution, High Reliability
- 100% design & made in Taiwan

M1 series specifications

- 3 Phase input • Vset : 14.5 +/- 0.3 V
- Current output: 15A (max.)
- Screw aperture: 7.2mm, pitch(inner/outer): 52mm/ 75.5mm
- product size : 65mm(H)*80mm(W)*20mm

	Model number: M101		Model number: M103
	Applicable models		Applicable models
	Kymco- Many LEA2、VJR 125 YAMAHA		Kymco- LEA 5(EFI)、GP125/VJR JR/V1/V2

	Model number: M104		Model number: M161
	Applicable models		Applicable models
	Sym-Fighter 125/150(化油) Kymco-Racing 125/150(化油) PGO-Jbubu、RX110/iRX115		YAMAHA- • 3/single phase general for <155cc (15A)

M3 Series

Feature of product

- High Output Power@idle (increase 10~50 Watt)
- Low/No Batt. Operation (work normally even without battery)
(Fast Voltage-recovery, No battery operation)
- High Efficiency, Cool Operating (temp. increase <math><10^{\circ}\text{C}</math>)
- Zero standby current, Auto Operating
- Thermal compensation, Precise Voltage
- System cost reduction, Fuel / CO2 reduction
- Zero Defect solution, High Reliability
- 100% design & made in Taiwan

M3 series specifications

- 3 Phase input • Vset : 14.5 +/- 0.3 V
- Current output: 30A (max.)
- Screw aperture: 7.2mm, pitch(inner/outer): 52mm/ 75.5mm
- product size : 65mm(H)*80mm(W)*20mm
